

Products	Description	Application
<b>NACORR 1151</b>	Barium salt of dinonylnaphthalene sulphonic acid (DNNSA), (liquid)	Primarily for solvent-based systems, good binder compatibility
<b>NACORR 1352</b>	Calcium salt of DNNSA (liquid)	Especially suitable for water-based formulations
<b>NACORR 1551</b> <b>NACORR 1552</b>	Zinc salt of DNNSA (liquid)	Especially for solvent-based systems, catalysed amino systems
<b>NACORR 1651</b> <b>NACORR 1652</b>	Magnesium salt of DNNSA (liquid)	Good compatibility with dispersions
<b>NACORR 1754</b>	Ammonium salt of DNNSA (liquid)	Best compatibility with water-based systems without cosolvent
<b>NACORR 4426</b>	Sodium salt of DNNSA, combined with polymer (liquid)	Waterborne resins based on emulsions
<b>NACORR 4451</b>	Sodium salt of DNNSA, combined with DEEA and zinc polymer (liquid)	Corrosion protection post-additive
<b>NACORR XR 6401</b>	Zinc salt of DNNSA (powder form)	Powder systems
<b>NACORR XR 6402</b>	Calcium salt of DNNSA (powder form)	Powder systems
<b>NACORR XR 7402</b>	Ammonium salt of DNNSA (liquid)	Water-based single-component systems
